Rachel Barrie

The Whiskey Schnupperin

You can guessed 140 aroma of whiskey and a master blender of Glenmorangie is one of the few career women of their profession. But even in motorcycles and Edinburgh Tips shines Rachel Barrie with knowledge. of [Siems Luckwaldt](#)

My style like my life commuting between town and country - that Edinburgh is ideal. We live in a suburb, the headquarters of Glenmorangie I drive 15 minutes into the city for ten minutes, and at the beach or in the surrounding woods, I'm even faster.

For my wardrobe, this means that on weekdays Maßhosen with colorful skirts and blouses and knit tops from Thomas Pink Fendi, Carvela medium-to-pumps and a coat from Hobbs. On weekends I wear country style, such as tweed or cashmere matters of House of Bruar. And a Barbour jacket! Whether I'm going to sail or hike in the Highlands, which may just stop everything. For our three boys, there's trousers and shoes from Timberland. I go shopping occasionally, preferably in foreign countries and cities. The 5th Avenue is great, but in the city of Hamburg, you can also buy very good. When I'm there, I get off at the Le Royal Meridien, the rooms provide great views of the Alster.

"We are a very athletic family," Our flagship street in Edinburgh called George Street, where there are fabulous boutiques and perfume shops leading from the Dior Capture Totale cream until Ysatis perfume by Givenchy anything to stand in my bathroom. Even the boutique hotel Tigerlily is situated on George Street, it is very stylish and has a good restaurant for the lunch break.

Our facility at home is more comfortable than fancy: terracotta, rustic oak furniture, leather, silk fabric and sheepskin. Sounds wild, but adds a very harmonious.

We are a very sporty family go on weekends to play tennis, swim in the steam sauna. Or we ride with a picnic basket and pole arms into the idyllic Perthshire and sail with the boat on Loch Tummel, where you can splendid fishing. In addition, I have been trying many times as possible to spend an evening at the Festival Theater, is the the first address for Scottish Opera and ballet performances. I even danced once, so I'm a big fan

I collect whiskey, which probably belongs to the professional ethics When we go out to eat with family and friends, we usually end up in the Tower restaurant, at the top in the National Museum of Scotland. For a dinner for two, I like the Witchery in the vicinity of the castle. **Then maybe a night cap in the [Whiski Bar](#) which has a phenomenal selection of stock of single malts.**

I collect whiskey, which probably belongs to ethics, as well as glasses from Baccarat and Wedgwood china. Nothing but classic then, and this applies to my fourth passion for collecting as well: My husband and I have seven vintage motorcycles from the 42-year-old Velocette LE to my favorite, a Triumph TT Roadster from 1911,

which I like to tweak mad. But we still share a weakness: Star Wars figures. Over 300 have already been distributed in the house. Funny, we both have for the young warriors have raved about before we first met.
